

Events

COLLABORATION SCIENTIFIC MEETINGS

- Virtual, May 2021: [Presentations available](https://indico.in2p3.fr/event/24079/)(https://indico.in2p3.fr/event/24079/)
- Virtual, September 2020: [Presentations available](https://indico.in2p3.fr/event/21826/)(https://indico.in2p3.fr/event/21826/)
- Wuppertal, January 2020: [Presentations available](https://indico.in2p3.fr/event/20083/)(https://indico.in2p3.fr/event/20083/)
- Lyon, July 2019: [Presentations available](https://indico.in2p3.fr/event/19280/)(https://indico.in2p3.fr/event/19280/)

WORKSHOPS

2021:

- [Virtual IEEE Nuclear Science Symposium and Medical Imaging conference October 23](https://www.eventclass.org/contxt_ieee2021/online-program/session?s=WS-06)(https://www.eventclass.org/contxt_ieee2021/online-program/session?s=WS-06)

2019:

- [PTCOG58 conference](https://indico.in2p3.fr/event/19189)(<https://indico.in2p3.fr/event/19189>) in Manchester (UK) June 10-15
- [MCMA conference](https://indico.in2p3.fr/event/19087)(<https://indico.in2p3.fr/event/19087>) in Montreal (Canada) from June 19-21: a workshop is organised at the McGill Health centre on June 22.
- A GATE Hackaton was organised on July 3 at Centre Léon Bérard in Lyon (France). This event enabled GATE developers and contributors to work and create together, in a friendliness and fun atmosphere, in order to initiate new GATE functionalities, correct bugs or propose code improvements. The event was primary intended for developers (C++, python, CMake, git), but all volunteers willing to contribute are welcome.

TRAININGS

The OpenGATE collaboration in partnership with CNRS Formation Entreprises are proposing two annual trainings organised in France: one dedicated to beginner users and one dedicated to Python data analysis. Those trainings are provided in english, they are open to 20 users maximum with 3 teachers.

Further, the collaboration can propose special trainings for companies (on site) wishing to use GATE, don't hesitate to [contact us](mailto:Lydia%2EMaigne%40clermont%2Ein2p3%2Efr?Subject=&body=)(mailto:Lydia%2EMaigne%40clermont%2Ein2p3%2Efr?Subject=&body=) for more information.

2021:

- 15-17 December: Virtual GATE school in partnership with IEEE NPSS and the university of Ho Chi Minh city (Vietnam) open to students from all the Asia region (30 participants max), **Registration open**(<https://indico.cern.ch/e/GATE>)
- 23-25 November: GATE training for beginners, **Registration open**(<https://cnrsformation.cnrs.fr/stage-21084-GATE-training-on-medical-imaging-%28PET%2C-SPECT%2C-CT%29%2C-dosimetry-and-radiation-therapy---Beginner-level.html?stage=21084&axe=134>)
- 09-11 March: Python data analysis for GATE simulations

2020:

- 08-10 December: REMOTE GATE training for beginners
- 10-12 March: Python data analysis for GATE simulations
- 12-14 February: GATE training for beginners in Japan

2019:

- 19-21 November: Annual GATE training for beginners
